

CGI COMPETITION

IUGS Standards for Mineral Resources

The mission of the Commission for the Management and Application of Geoscience Information (CGI) is to foster the interoperability and exchange of geoscience information, by active community leadership, collaboration, education, and the development and promotion of geoscience information standards and best practice.

We are looking for passionate professionals to join our working groups.

This year, we want to hear from you!

Do you have **creative ideas**?

- On the application of CGI standards for Mineral Resources.
- That encourage the use of CGI standards.

The winners will have an opportunity to present their application of CGI standards at Resources for Future Generations 2018 (RFG 2018).

PRIZE: Transport and accommodation to RFG2018 conference in Vancouver, Canada, 16–21 June 2018.

How to Enter

- Submit a proposal **demonstrating** the use of CGI standards.
- Must register for CGI membership.
- Submit abstract to RFG2018.

Closing date: 20 March 2018
